## SUMMARY

Full Stack Developer with over 5 years of experience building scalable and high-performance web and mobile applications. Specialized in ReactJS, TypeScript, Node.js, and .NET. Strong background in backend technologies including **Java** and **Laravel**. Passionate about clean architecture, **DevOps automation**, and delivering high-quality products.

**Tech Stack:** React, Next.js, TypeScript, Node.js, Express, .NET, **Java**, **Python**, **Laravel**, MySQL, Tailwind-CSS, **GitHub Actions**, **Fastlane**.

## CORE SKILLS

- **Languages:** TypeScript, JavaScript, C#, **Java (4 years academic exp)**, **Python (1 year practical exp)**, PHP.
- **Frameworks & Libraries:** React.js, Next.js, Flutter, .NET MAUI, **Laravel**, Express.js.
- **Architecture & State:** Clean Architecture, REST APIs, Redux, Riverpod, Context API.
- **DevOps & Tools:** **CI/CD (GitHub Actions, Fastlane)**, Git, Agile Methodologies, Firebase.

## EXPERIENCE

### MOSBIT

*Flutter Developer*

Guadalajara, Mexico

May 2025 – Present

- Design and development of a mobile application using Flutter and Firebase as backend.
- Implemented Clean Architecture and reactive state management with Riverpod.
- **Architected and maintained CI/CD pipelines using GitHub Actions and Fastlane to automate building, testing, and deployment processes for Android and iOS.**
- Integrated Facebook and Apple sign-in for secure and seamless authentication.

*.NET MAUI Developer*

April 2025 – Present

- Contributed to the development of a mobile app using .NET MAUI, enhancing UI design and data structure.
- Implemented DTO-based models for server communication, dynamic forms, and custom libraries for real-time chip data reading.

*Flutter Mobile Developer*

February 2025 – Present

- Created and structured a Flutter mobile application, using BLoC for state management and Firebase for cloud services.
- Developed file management, document downloads, and REST API integration using Dio.
- Integrated Google, Facebook, and Apple authentication and RevenueCat for subscription management.

### Colabora

*Frontend Developer*

Guadalajara Metro Area, Mexico

July 2021 – Present

- Specialized in React.js, responsible for UI design and API integration using .NET and Express.js.
- Used TailwindCSS and PrimeReact components, applying clean architecture principles.
- Implemented useReducer and Context API for state management and MSAL for authentication.
- Worked with Formik, interactive maps, and Git for version control.

### Evalúa

*Full Stack Developer*

Guadalajara Metro Area, Mexico

Feb 2022 – Feb 2023

- Supported development of Compact, a survey management and analytics platform.
- Worked on frontend (React.js) and backend (Node.js, Express, Sequelize).
- Implemented PDF/Excel export, state management, and MSAL authentication.
